

FIRST-YEAR BEARS

WHAT IS A LIVING-LEARNING COMMUNITY?

A living-learning community (LLC) is a group of students who share a common academic or theme interest and live together in a residence hall. Residence Life partners with faculty and staff across campus to implement special programming related to the LLC focus. Students living in the LLC also have the opportunity to get to know these partners outside of the classroom.

WHAT SHOULD I EXPECT AS PART OF THE LLC?

Your Resident Assistant (RA) will have information about a variety of activities and resources related to the topic of your LLC and academic support. Plan on being involved in various events and share your ideas for future programming! The more involved you are with the community, the more benefits you'll gain.

Academic Advisor, Academic Advising and Transfer Center

My name is Gates and I have been a full-time staff Academic Advisor at Missouri State for three years. Before advising, I was a graduate student in the Department of Biology. I live with my husband Aron and my dog Opie and love to go on long walks with them throughout the city's trails.

GEP 101 and feeling at home on campus

When you start classes on August 17, you may find yourself feeling a bit overwhelmed with all the new information that will be thrown at you! Luckily, you'll have a class in your schedule designed to help you navigate the transition to college life and academics. GEP 101 is a 12-week class that will help you develop the skills you need to succeed academically, understand and engage with MSU's Public Affairs Mission, and make connections with others so you can create a support system here at Missouri State!

Your instructor will be a valuable resource to help you navigate your transition to college. The office the course is housed in, the Center for Academic Success and Transition (CAST), is a great resource for you, too! Learn more about the CAST office and their services [HERE](#).
